OVERVIEW

Degrees Offered

- **BS** in Biomedical Engineering at Georgia Tech
- **MS** in Biomedical Engineering at Georgia Tech
- **Master's** in Biomedical Innovation & Development at Georgia Tech
- **Master's** in Biomedical Innovation & Development - Advanced Therapeutics at Emory University
- **PhD** at Emory University and Georgia Tech
- **MD/PhD** at Georgia Tech and Emory University School of Medicine

Research Focus Areas

- Biomaterials & Regenerative Technologies
- Biomedical Imaging & Instrumentation
- Biomedical Informatics and Systems Modeling
- Biomedical Robotics
- Cancer Technologies
- Cardiovascular Engineering
- Engineering Education
- Immunoengineering
- Neuroengineering
- Synthetic Biology
- Personalized Medicine For All

NSF Engineering Research Center for Cell Manufacturing Technologies (CMA^T)

- \$20 million National Science Foundation investment
- Eight-university consortium
- Developing advanced cell therapies for heart disease and cancer

STUDENTS

1,106 undergraduate students

- **59%** of undergrad students are women, and **25%** are underrepresented minorities

Nearly **3/4** of BME undergraduates engage in research

463 graduate students

- **50%** of graduate students are women, and **27%** are underrepresented minorities

Coulter BME graduates the largest number of...

- **women BME students in the U.S.**
- **BME students from historically underrepresented minority groups in the U.S.**

FACULTY

\$90M+

Annual Research Expenditures (FY25)

59+

patents issued to faculty since 2015

88 primary faculty members

- **25%** of tenure-track faculty are women and **10%** are URM
- Plus **19** professional-track faculty members

5 current and emeritus faculty are NAE Fellows

1 NAE Gordon Prize to 3 BME faculty for Pioneering Engineering Education

POST-GRAD PATHS

Bachelor's Recipients

- Industry, 55%
- Grad school, 16%
- Med school, 12%
- Other, 9%
- Undecided, 8%

INDUSTRY PLACEMENT

- Medical Device, 50%
- Consulting, 10%
- Software/Hardware/Health IT, 9%
- Consumer Products, 7%
- Business, 5%
- Research, 4%
- Entrepreneur, 3%
- Government, 3%
- Pharma, 3%
- Design, 2%
- Energy, 2%
- Other, 2%

Ph.D. Recipients

- Industry, 39%
- Post doc, 37%
- MD, 9%
- Unknown, 7%
- Government, 3%
- Tenure track, 3%
- Non-tenure research, 2%

INDUSTRY PLACEMENT

- Medical Device, 37%
- Other, 16%
- Consulting, 13%
- Pharma, 8%
- Software/Hardware, 7%
- Research, 6%
- Bioinfo/Technology, 6%
- Security/Defense, 6%
- Scientific Writing, 1%

COMMERCIALIZATION

Accelerating commercialization of early-stage medical technologies with IP held at Emory or Georgia Tech ► biolocity.org

285
jobs created

350M+
follow-on funding

40
startups
since 2015

18
licenses to
industry

6
product launches

2
acquisition

GEORGIA TECH COLLEGE OF ENGINEERING

Largest and most diverse College of Engineering of its kind in the nation

#2

...program in nation among undergraduate programs

#1

...in the nation in engineering degrees awarded overall to women

\$268M

total Research Awards, FY26

GEORGIA INSTITUTE OF TECHNOLOGY

- 28 CoE faculty are members of the National Academy of Engineering
- All 10 undergraduate engineering programs are ranked in the Top 5 and graduate engineering programs are ranked in the Top 10 nationally by *U.S. News & World Report*
- Georgia Tech made a \$6.3 billion impact on the state of Georgia in fiscal year 2025
- Georgia Tech is the top producer of engineering Ph.D.s in the country according to ASEE

LUKE O'CONNELL Director of Development
luke.oconnell@bme.gatech.edu | 404.385.0471

EMORY UNIVERSITY

- 36 members of the National Academy of Medicine
- \$738.5M in research funding for School of Medicine faculty in FY24
- SOM has 532 medical students and trains 1,439 residents and fellows in 118 accredited programs.
- Emory School of Medicine welcomes new dean, accomplished surgical oncologist and researcher Dr. Sandra L. Wong.
